Re: Westfield-Barnes Draft Vegetation Management Plan (VMP)

To Whom it May Concern:

The City of Westfield, Westfield-Barnes Airport Commission has prepared a draft Vegetation Management Plan (VMP) for the airport to remove trees and other vegetative growth that are potential obstructions to aircraft. The document addresses areas in both Westfield and Southampton with short-term on-airport actions and long-term goals for management. The VMP is available for public review. Should you have any questions or like to request a copy, please contact me by phone or email (egillen@b-e-c.com).

Very truly yours,

BEC, Inc.
