**Re: Phase IV Remedial Implementation Plan Addendum
Horace Mann School, 687 Watertown Street, Newton
Massachusetts DEP RTN 3-16552**

Dear Ms. Hutchins:

A Phase IV Remedial Implementation Plan (RIP) Addendum has been submitted to the Massachusetts Department of Environmental Protection (DEP) for the above-referenced site. The initial Phase IV RIP was submitted to the DEP by Lord Associates, Inc. on May 27, 2003. The site was classified as Tier II on March 2, 1999.

The Phase IV RIP Addendum outlines the implementation of enhanced bioremediation as an additional remedial alternative to reduce petroleum-related (i.e., weathered No. 2 fuel oil) impacts within groundwater at the site. A copy of the report may be obtained by scheduling a file review through the DEP Northeast Region File Facility Office in Salem at (978) 740-0809.

Please do not hesitate to contact us if you have any questions.

Very truly yours,

LORD ASSOCIATES, INC.
